

March 27, 1974

two bills as you know were the bills that were following 834 and when 834 was passed Senator Kennedy checked with the Governor and the Governor said that he would sign 834, so there is no reason to pass 977 and 977A at this time, unless something develops. Also we amended 834 and Senator Carpenter's amendment on 834 was accepted and if we, perhaps no, it was not I guess, but anyway the amendment was proposed by Senator Carpenter and we have the same language in 977, I think that we should hold this bill on Final Reading until we see what happens to 834.

PRESIDENT: Senator Schmit is asking unanimous consent to bracket 977 and 977A on Final Reading, Senator Carpenter.

SENATOR CARPENTER: In view that we have passed 834, or whatever the number of it was, which was a bill that was accepted by the Governor and this body, certainly we are not going to consider 977 and 977A which would put into effect the change in the category as far as the money is concerned. So I would move that it is in order now to indefinitely postpone the bill, it could serve no good purpose.

PRESIDENT: His motion...if you object to his motion, well then he has to move and reconsider his motion was a unanimous consent to bracket the bill and you can object if you want to and then we will take it from there.

SENATOR CARPENTER: Only from a point of order, that when we get through with the motion to indefinitely postpone the two bills in order.

PRESIDENT: No, not at this time because we are not on Final Reading and have no final reading this morning. You can place the motion up here and when the bills do get up here for Final Reading by then the motion will be in order.

SENATOR CARPENTER: OK, Thank you.

PRESIDENT: Alright, does anyone object...Senator Goodrich do you object to bracketing the two bills on Final Reading.

SENATOR GOODRICH: I just wanted to ask Senator Schmit a question if he would yield. Senator Schmit you see 977 is already over there on Final Reading, my thought was why not pass it send it over to the Governor and hold 834.

SENATOR SCHMIT: Because I prefer 834. I don't want 977 and you know darn well that I don't. I move to bracket the thing.

SENATOR GOODRICH: I will object.

PRESIDENT: You are objecting?

SENATOR SCHMIT: Then I so move.

PRESIDENT: Alright then Senator Schmit is moving that we bracket 977 and 977A on Final Reading. Do you want to discuss that particular motion? Senator Carpenter.

SENATOR CARPENTER: Just from the standpoint of trying to know what the effect will be. If we bracket 977 and 977A probably they will die, is that your desire Senator?
